

Video Script

So, you're beginning your medical training in Ontario – congratulations! Touchstone Institute offers programming for internationally educated physicians, like yourself, that will not only support your transition into training, but will also benefit you as a healthcare provider.

Here's what you can expect.

NETWORKING

Firstly, you will gain access to medical professionals and associations from all across the community, as well as other doctors who are going through the same transition.

SUBJECT MATTER EXPERTS

The sessions you attend will be taught by highly respected experts on a wide range of topics, combining the latest in research and practice as it relates to the Canadian healthcare system.

SIMULATIONS

You'll also have the unique opportunity to engage in simulated patient encounters using professional actors. This practice will help to improve your interpersonal skills and ensure that you're equipped to deliver the best care possible.

FEEDBACK

From those encounters, you'll receive constructive feedback on specific competencies from practicing physicians, giving you the opportunity to review and grow as a professional.

ACADEMIC ADVISING

Finally, we offer one-on-one academic advising from practicing physicians in your area of expertise. So if you have questions about your program, residency, or what happens after that, they're here to help.

Now that you know a little more about us, we're pleased to welcome you to Touchstone Institute. With your existing skills and our programming, you'll be well on your way to transition to practice in Ontario.
